

Abraham Parra

Safety Manager

BIO

Abraham Parra joined Bayview in 2022 as a Safety Manager and Training Instructor for Bayview's Northern California region. While enrolled in the Occupational Safety and Health program at Los Positas College, Abraham worked as a student assistant in CAL OSHA's enforcement division. After college, Abraham began his career in construction, gaining valuable field experience in both abatement and demolition. Abraham's leadership and communication skills allowed him to quickly transition from laborer to site foreman. When his employer needed a new safety manager, Mr. Parra's unique combination of education and field experience made him the perfect choice to fill the role. Since that time, he has been a champion of safety in both the field and classroom settings.
