

Steve Gately

Estimator / Project Manager

BIO

Joining Bayview in 2022, Steve Gately brings with him over 30 years of experience in the environmental industry. During this time, he has become an expert in the transportation and disposal of hazardous wastes, as well as project management. His specific areas of expertise include containerized waste, bin and vacuum truck services, guzzler and Vactor work, tank cleaning/removal, and emergency response. From challenging chemical spill cleanups to large scale remediation projects, Steve's focus has always been on solving environmental issues in the safest and most compliant manner in the industry. This mindset makes him a natural fit for our rapidly expanding Industrial Services division.
